About Us

At The Manufacturing Project, we redefine interior product manufacturing with precision, innovation, and cost-efficiency.

With our state-of-the-art, 20,000+ sq ft fabrication facility, we create high-quality cupboard frames, doors, decorative panels, partitions, and more —all with machine-driven accuracy.

Leveraging advanced laser cutting, CNC machining, and PU/powder coating, we craft products from stainless steel, mild steel, aluminum, and PVD sheets—delivering superior quality at competitive prices.

Why Choose Us?

> Unmatched Precision & Quality

Our machine-made products ensure flawless execution, eliminating inconsistencies found in hand-crafted solutions.

> Continuous Cost Optimization

We streamline manufacturing processes, minimize dependencies on third-party vendors, and pass the cost savings directly to you.

> Stringent Quality Assurance

Every product undergoes rigorous quality checks, ensuring both aesthetic appeal and long-term durability.

> Scalability On Demand

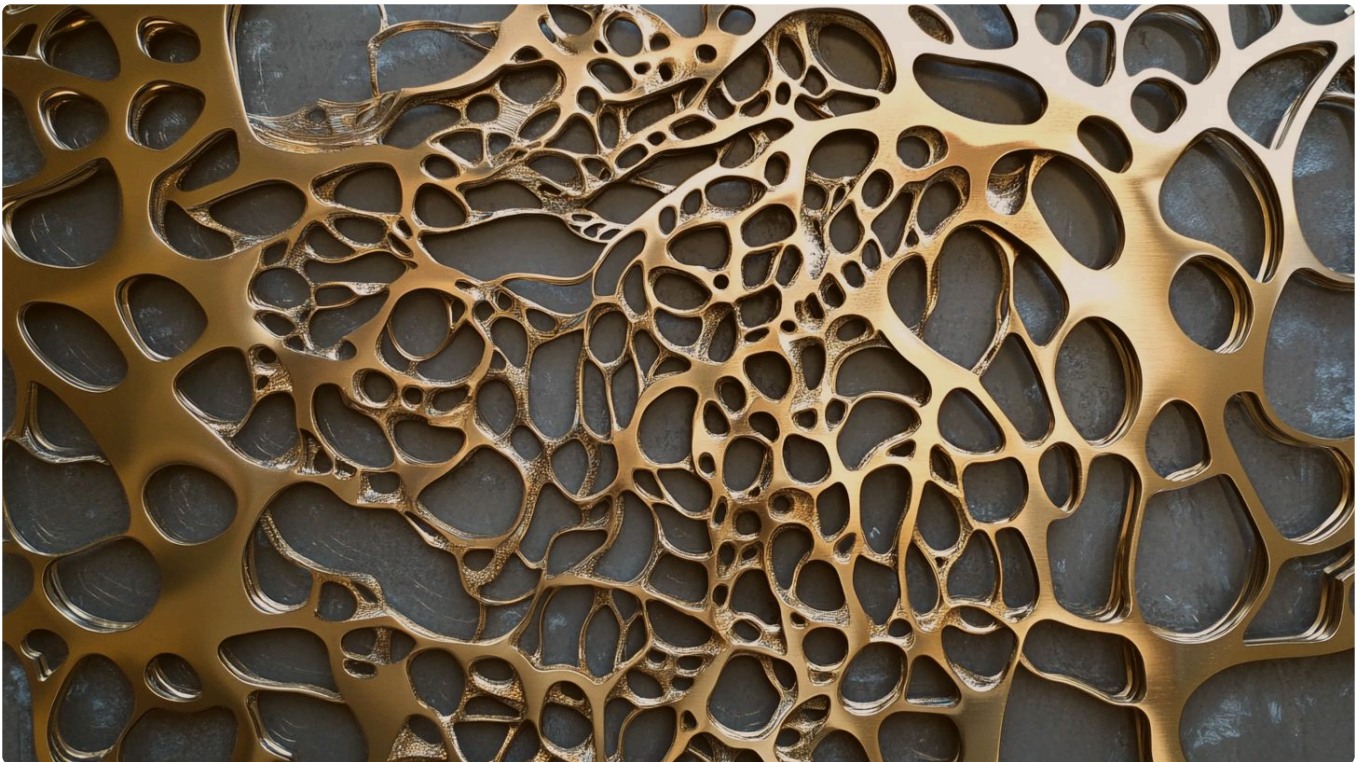

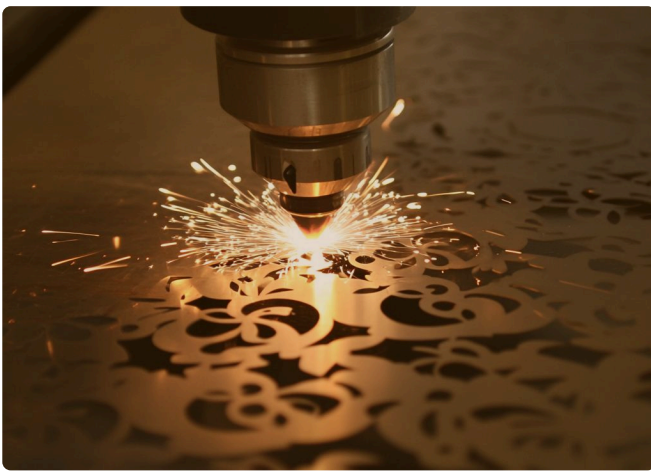

With our proprietary machine setup, we scale production seamlessly to match your growing needs.

Manufacturing Capabilities

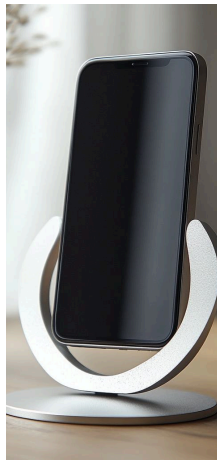

> Laser Cutting – Precision Meets Creativity

Our high-precision laser cutting technology transforms metal sheets (steel, aluminum, PVD, etc.) into stunning partitions, grills, cupboard doors, puja room decorations, and more. Whether modern or traditional, our products add an elegant touch to any space.

> CNC Machining – Strength & Style in Every Cut

From bending, milling, and framing to intricate custom designs, our CNC machining brings versatility to cupboard doors, puja rooms, and more. Whether working on plain or laser-cut metal and aluminum extrusions, we create seamless, high-quality finishes.

> PU & Powder Coating – A Finish That Lasts

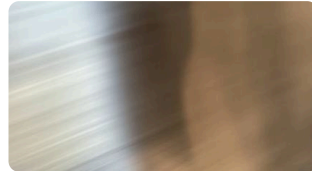

Give your metal products the fine aesthetic and protective finish with our PU and powder coating solutions. Choose from a wide range of colors and textures to match your design vision.

Materials We Work With

> Metals

Stainless Steel, Mild Steel, PVD Sheets, and Aluminum

> Aluminum Profiles

From G-Handle Profiles to Shutter Profiles, we offer a comprehensive selection-
